

Aboriginal Carbon Foundation

The Aboriginal Carbon Foundation (AbCF) catalyses life-changing, community prosperity, through carbon farming, cultural fire, and strength-based community development. Our aim is to build wealth for Traditional Owners, implementing carbon projects that demonstrate environmental, social and cultural core benefits, through the ethical trade of carbon credits.

The AbCF operates on the cutting edge of Indigenous ideas and community-based solutions. We bring together people with fresh ways of working, professional experience and a desire to achieve outcomes that promote Indigenous prosperity and climate change through a strengths-based approach.
